DR. DMAE
SOLUTION ESSENCE

Dr. DMAΣ SOLUTION ESSENCE

Dr. DMAE Solution Essence Blue is a special hyaluronic acid moisturizing treatment. It is formulated to improve the skin's overall quality by boosting hydration levels deep inside the skin and increasing its smoothness, elasticity and firmness

Soothe
sensitive skin

Moisturize
dry skin

Improve
aged skin

- Anti-inflammatory effect
- Fibroblast activation
- Water loss prevention
- Skin cell regeneration
- Skin barrier enhancement

The optimal ingredient combination for excellent skin rejuvenation

Dr. DMAE Solution Essence Blue restores tired and dry skin back to health through the excellent skin regeneration effect of salmon DNA and the rich moisturizing effect of hyaluronic acid.

HA (Hyaluronic Acid) (1.5%)

- Natural moisturizing factor contained in the human body & Major components of the extracellular matrix
- Moisture absorption & skin soothing
- Together with collagen, it is involved in skin elasticity and skin aging

PN (Polynucleotide) (0.5%)

- Salmon DNA fragment with excellent biocompatibility, Minimize side effects
- Activate the skin's self-renewal power & Promote the regeneration cycle & Relieve inflammation
- Increases the production of matrix proteins such as collagen by activating fibroblasts

DCCM4 (Defined Cell Culture Media 4)

- DCCM4 contains 44 kinds of skin core ingredients for culturing stem cells and promotes cell regeneration
- Amino acids, essential minerals, energy sources and vitamins dissolved in DCCM4 are absorbed into the skin to improve skin so that skin stem cells can grow well.
- DCCM4 promotes the better absorption of active ingredients into the skin, creating a lively skin

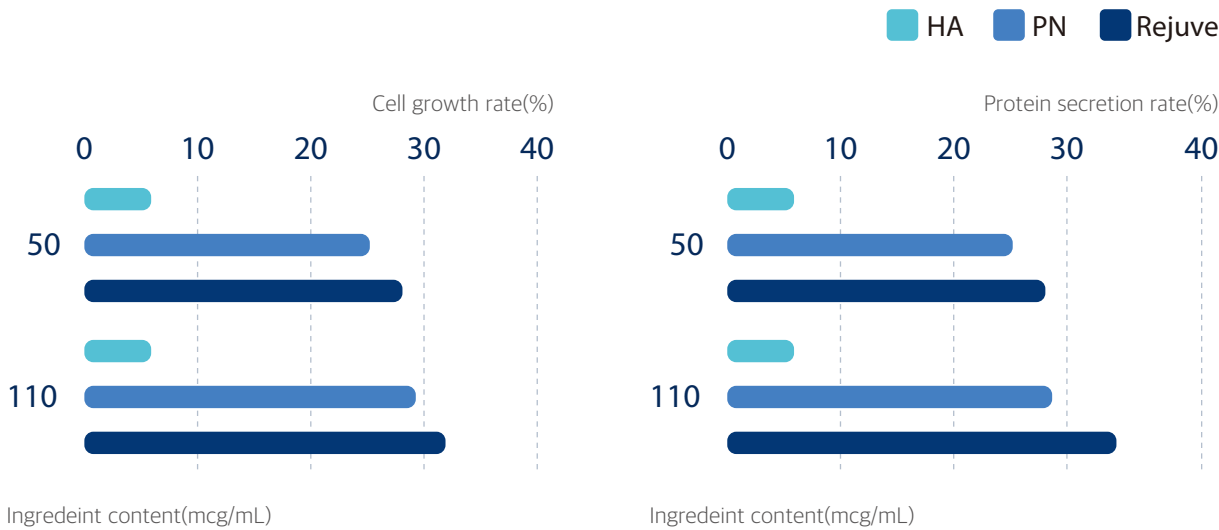

The synergistic effect HA+PN for skin rejuvenation

PN (Polynucleotide)
Skin hydration

HA (Hyaluronic acid)
Skin regeneration

HA+PN shows higher rate in cell growth and protein secretion than each single component.

HA(Hyaluronic acid) creates an ideal solvent for optimizing the rejuvenation effect of PN(Polynucleotide)

“ Being formulated on HA-PN combination, Rejuve performs intensive effect in fibroblast growth-stimulating, volume growth facilitating, and skin regenerating. ”

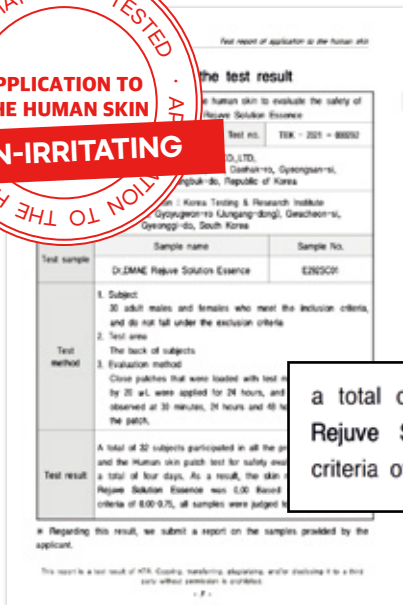

Ensuring Quality

Dermatology Tested

This is a test of application to the human skin to evaluate the safety of Dr.DMAE Solution Essence Blue in a total of 32 subjects.

It was judged that

Dr.DMAE Solution Essence Blue fell under “the category of non-irritating.”

Application to the Human Skin
